Journey to build our State Disability Plan

Consultation and Development Phases

Defining a 10-year vision
Broad community consultation across Western Australia to establish an aspirational 10-year Vision Statement for the State Disability Plan.

Exploring our community
State-wide engagement to define what values, attitudes and behaviours we would like and expect to see in our community for people with disability.

Building a 10-year Plan
Community consultation to identify priority areas and opportunities for change. These will be the foundation of the 10-year State Disability Plan.

Response and Action Phases

Creating change in our community
Implementation of a community awareness campaign to increase understanding of disability and to empower community members to be more inclusive.

Implementation of Plan
Development of the first two-year Action Plan that guides delivery of initiatives reflecting the priority areas and opportunities for change within the State Disability Plan.
