Strengthening and coordinating our responses and impact

What are the priorities?

Housing First
Providing people with safe and stable housing without preconditions or judgement, including increasing low-barrier accommodation options.

No Wrong Door
An approach where people can get help regardless of which service or agency they connect with.

Rough Sleeping
An immediate targeting of those who are most vulnerable – people sleeping rough.

Whole-of-community approach
Collaborating with people with lived experience, the community services sector, business, philanthropy and government to deliver appropriate and flexible housing options and services.

Place-based response
Developing place-based responses that are informed by local needs, context and capacity and enable local decision making.

How we will get there

These priorities will guide the implementation of the strategy across all four focus areas.

The Strategy will be implemented through two Action Plans that will move us towards our ten-year vision. These Action Plans will outline implementation and provide detail on how we will progress our priorities, including who is responsible for delivering what and by when.
