

WA Housing Strategy 2020-2030

Snap Poll # 7– Diverse and sustainable housing choices

Summary:

This snap poll sought Western Australian’s sentiment around diverse and sustainable housing choices. Of the 218 responses, the majority of respondents being between 26 and 65 years old.

Respondents pointed out that the diversity of housing choices in WA is only average, and more adaptable homes for changes in life circumstances; as well as more alternative methods of constructions are needed.

Importantly, 88 per cent of respondents believe that the design of a home is fundamental to health and wellbeing; and in order to make their house more sustainable, 90 per cent of respondents would install passive solar design to improve energy efficiency and have more water wise gardens (75 per cent).

In your view, how do you rate the diversity of housing choices in WA?

4.68
Average Number
