

COVID-19 Testing clinics

If you are not able to leave your house

Contact your GP. If it is available, your GP may be able to arrange for home testing or make alternative arrangements.

If you can leave your house

Please attend your nearest COVID-19 clinic. Click on the link below to see [When and Where COVID-19 clinics are open](#) across the Perth metropolitan area and in the country.

People seeking testing in country areas where there is not a COVID clinic should go to a public hospital, health service or remote health clinic. Make sure you phone ahead to advise of your symptoms.

If you want more information, phone the **WA Coronavirus Helpline on 13 26 843**.
